

Math 203: Contemporary Mathematics

Section 009, spring 2009

Homework assignment

Assigned Tuesday, January 13

1. Answer the following questions about this course.
 - (a) Where is my office? (For three bonus points, find my office and write your name on the paper posted beside the door.)
 - (b) How are attendance and participation graded?
 - (c) What things should you get done before class each day?
 - (d) When is the final exam?
 - (e) What is the most important rule for this course? What does this mean?
2. Section 1.1, problem 10. (Be sure to read the description of the check digit scheme given above problem 9.)
