Name: _____

Math 203: Contemporary Mathematics
Quiz 1: Thursday, January 15, 2009

The following two questions are worth up to 3 bonus points each. These points will be based on the accuracy, completeness, and clarity of your responses. Use full sentences, and avoid saying things that are untrue, ambiguous, or nonsensical.

1. What are check digits? Why are they useful or important?

2. According to the course information sheet, what is the most important rule for this course? What does this mean?
