Instructor: Steve Cohn
Office: Avery 226
Phone: 472-7223
Email: scohn1@math.unl.edu
Text: *University Calculus*, by Hass, Weir and Thomas.

Office Hours: My office hours are Monday 10:30-11:20, Tuesday 1:30-2:20, and by appointment.

Course Update: This is a daily course log on my website. (Go to the UNL Math department site, from there to “People” and from there to “Faculty.” A click on my name will get you to the right page.) If you miss class, you can check the update to find which topics and sections were covered, which problems assigned, etc.

Homework: The homework assignments, subject to occasional modification, are given on the syllabus. Homework will not be collected.

Calculators: See syllabus.

Exams: See syllabus.

Final Exam: See syllabus.

Gateway Exam: See syllabus.

Project: You may work on the project alone, or in a team of no more than three. Projects will be graded on both the writing and the mathematical content.

Quizzes: Quizzes will be given during recitation on the following Thursdays: 9/4, 9/11, 9/18, 10/9, 10/16, 10/23, 10/30 and 11/13.

Makeups: There will be no makeups of quizzes or exams. If you need to miss a quiz or exam, see the instructor.

Grading: Quiz and exam problems will be based mostly on the homework, lectures and assigned reading. To get substantial partial credit on a quiz or exam problem, you must show significant progress toward a correct solution. Answers unsupported by work or explanation will receive no credit. Toward the final grade, quizzes count cumulatively for 15%, the exams 35%, the final 30%, the project 15% and the gateway exam 5%.
