Please answer the following questions (there are also questions on the back of the sheet).

1. What is a major strength of the instructor?
2. What is a weakness of the instructor?
3. What one topic discussed so far has been the most difficult for you to learn?
4. What suggestions do you have for improving this course?

Most of the suggestions related to the lectures moving either too slowly or too quickly, or not enough/too many examples being worked. Since the class was pretty evenly split, I will not change the pacing. However, I will try to encourage more questions. The only way that I know if students are understanding the lecture or not is if they ask questions about points that are confusing or went by too fast.

Thank you for your input!
