<b>Program Type:</b>	Academic Enrichment
<b>Grade/Age Levels:</b>	Grades 10–12
<b>Description:</b>	All Girls/All Math Summer Camp for high school girls at the University of Nebraska in Lincoln provides a stimulating and supportive environment for girls to develop their mathematical ability and interest. Camp participants take a weeklong course about mathematical codes as well as mini-courses on topics such as bioinformatics, aerodynamics, and knots. The girls will work with female mathematics professors and graduate students, and interact with peers who share an interest in mathematics. Special consideration will be given to those entering their sophomore or junior year and who have successfully completed high school geometry.
